Advanced

**Calendar:** Help your customers plan: Announce special events along with images and links—even categorize them.

**Bios:** Tout your talent with location-based staff bios, roles, profile pics, and accreditations.

**Products:** Elucidate the essence of your business.

**Social Posting:** Include specific social posts on your website for updates that bring your site to life.

**Menus:** Serve up menus and pertinent info like calorie count, nutritional value, photos, and more.

**Smart Sizing:** Automatically snaps to fit the appropriate space on your site.

**Easy Setup Options:** Get started quickly with two easy set up options: Wordpress Plugin or HTML Snippet. The Wordpress Plugin offers crawlable Wordpress-friendly shortcuts while the HTML Snippet features simple embed code for any HTML editor.

**Responsive Design:** Designed responsively so your brand and its content shine on any device.

**Customized Fonts and Background Colors:** Match your Page widgets' brand fonts and background palette to your site.
